

Things you might NOT KNOW ABOUT US...

10.

Our all Glass Fabrication Facility is over 33,000 square feet, and houses **top of the line manufacturing equipment from around the globe.** Although you will find **our home in Whitnsville, Massachusetts,** we are only 15 miles from our original Woonsocket, Rhode Island home...and we remain true "Woonies" at heart.

09.

Our **2 MAPPI Tempering Furnaces** push the old limits for sheet size, and we now temper single sheets up to 86"x144"!

08.

We love our **2 FORVET High Speed Drilling and Milling Machines** - which perform precision notching in record time! *(Yes - experts cannot believe their eyes!)*

07.

We don't like to boast - but our **14 Spindle Edging & Mitering Machine** produces an almost unbelievable luster.

06.

Our **Cutting Tables** make it look too easy *(it's really not...)* while our **Computerized Racking & Storage System** is seriously slick.

05.

We promise you'll be blown away by our Digital Printing division **SWOON - Powered by Dip-Tech.** As one of the few facilities in the US to offer this innovation, let us educate you on how Digital Ceramic In-Glass Printing challenges the old rules of glass as art.

04.

We truly care about our environment. Our **VITROSEP Closed-Loop Water Filtration System** allows us to re-use the majority of our water on a daily basis.

03.

We have a truly amazing **Water Jet.** By means of importing electronic drawing files, we can cut virtually any shape or hole size and notch any shape in a precise, economical way. We also mill, edge and polish any shape and edge any profile - even interior notches! **Think a job is too hard to cut? Let us decide!**

02.

Our **LAMMIFlex 240 Lamination Machine** is so impressive, we renamed her **WAMMI.** We'd love to educate you on how Laminated Glass brings structure, art & safety to so many applications. Note - we **Post Polish** our lamination for a true high quality edge aesthetic.

01.

What began in 1946 as a family run glass retail business has grown into a major player in the world of Glass Fabrication in the United States. We are American men and women running a true American Factory, proud to build products that enhance the fabric of our everyday lives. Look around, what do you see made of glass today? We believe that the possibilities are endless.

Or as we like to say...

You Bet Your Glass We Can.
